

# Senior Quality Control Inspection Specialists

**Federal Engineers and Constructors (FE&C)**

**Richland, Washington**

## **Job description**

FE&C is currently looking for experienced, highly skilled Quality Control Inspection Specialists. The specialists must be experienced in Civil, Structural and Mechanical. We are also looking for a specialist with a CWI certificate. The candidates must be able to read and understand specific instructions to ensure proper inspections, documentation and verifications have been performed and provide reporting as required by specific contracts. The upcoming work will be 1099 form work at very competitive rates. Additional training for access onto DOE sites will be required.

The successful candidates must have excellent verbal and written communications skills, 10 to 15 years of quality experience working in the government construction quality industry (NQA-1 preferred), a positive attitude, good organizational skills and a strong work ethic.

Please submit resume along with applicable certifications for consideration.
