

Alvin Langstaff

Audit Chair

Alvin Langstaff is an ASQ certified Manager of Quality and Organizational Excellence. He joined ASQ in 2007 and has previously served as section Chair, Nomination Chair and Voice of the Customer Chair.

He received a Bachelor of Science degree in Mining Engineer from Colorado School of Mines and a Master of Engineering Management degree from Washington State University.

During his professional career, spanning over 30 years, Alvin worked in underground mining, radioactive waste cleanup, construction, safety assurance, quality assurance and organizational effectiveness. He worked for many years for several Hanford contractors, most recently as a Senior Quality Assurance Engineer for Bechtel National, Inc. on the Hanford vitrification plant construction project.

He is also a member of the American Society of Safety Engineers (ASSE).
