

Tuesday,  
September 14, 2010

**LOCATION:**

Shilo Inn  
50 Comstock  
Richland, Washington

5:30 p.m. - Check in/Networking  
and no-host cocktail service  
6:00 p.m. – Buffet Dinner  
7:00 p.m. - Presentation

**DINNER BUFFET MENU:**

The Chef and crew at O'Callahan's Restaurant always provide a fine and varied buffet dinner for us at the Shilo Inn. The buffet usually includes two entree choices, plus accompanying vegetable, a number of tasty salads, and a vegetable and/or fruit tray.

Your choice of coffee, tea or decaf is included with dinner. And don't forget to save room for dessert!

**Cost:**

\$17 ASQ members  
\$20 non members  
\$5 presentation only

Reservations are requested by September 9. E-mail [panda\\_2@charter.net](mailto:panda_2@charter.net) with your name, phone number, company affiliation, and type of reservation, or call Alvin at 371-2221.

**Note:** All no shows will be billed unless cancelled 48 hours in advance.

For more information about ASQ and other upcoming events, please check our website at [www.asq614.org/](http://www.asq614.org/)

## “Focus Your Energy” What are they up to now?

### Angelica Reyes Infinia Corporation

Infinia got its start in 1985 (as Stirling Technology) by developing an implantable heart assist pump. This device was based on an extremely reliable Stirling engine and incorporated Infinia components and technologies still in use today.

Today, Infinia is an aggressive team commercializing a compelling and uniquely scalable solar power solution that will enable broad access to inexpensive, mass-manufactured solar power. Infinia is also working on a number of other unique energy conversion products that offer the potential to dramatically increase energy efficiency and cost effectiveness.

Infinia Corporation is a solar energy technology company and the developer of the PowerDish, a proprietary solar power generation product that converts solar energy into electricity. The PowerDish is expected to be sold globally beginning in late 2010 and will be initially sold to energy asset developers, utilities, commercial companies and others engaged in deploying large scale solar asset projects. Since its inception, Infinia has been delivering super-high reliability, zero-maintenance, free-piston Stirling engines and power systems to commercial companies and U.S. government agencies.

Infinia's vision is to improve the quality of life on our planet by changing the way the world uses energy. Join us on September 14 to learn more about the following:

- Company History
- Current Projects
- Ensuring Excellent Outcomes
- Challenges and a Bright Future
- Questions & Answers

About the Speaker:

*Angelica Reyes serves as the Manager of Compliance at Infinia. In this capacity, she is responsible for ensuring that all products deployed meet all applicable laws, orders, rulings and regulations. She is responsible for ensuring that compliance is designed into the product and that all necessary certifications are in place. She also leads Infinia's Change Management process, ensuring that all changes take place in a controlled and coordinated fashion so that designs and documentation are released with integrity and properly implemented. Since starting at Infinia in June 2008, Angelica has worked to ensure that processes are in place to ensure that reliability is designed into the product, and quality is built into the product realization processes such as supply chain, manufacturing and assembly.*
