

Denise Fast

Audit Chair

Denise Fast is an ASQ Certified Software Quality Engineer and has been an ASQ member since 2009. She holds a BA degree in Business Administration with a minor in Management Information Systems from Washington State University.

Denise is currently a Senior Software Quality Engineer at Bechtel, working on Hanford's Waste Treatment Plant (also referred to as the VIT Plant), supporting oversight of the clean-up of the Hanford Site.

Denise has software experience in both the private and government sector ranging from a subject matter expert to software owners on the implementation of the software life cycle deliverables, performing software quality oversight, development of new products for a telecommunications company, to providing software technical support to software owners to effectively comply with the requirements.
