

Emily Wilson, PhD

Nominations Chair

Emily Wilson has more than 38 years of Quality Assurance/Quality Control experience, the majority of which have been with the U.S. Department of Energy (DOE) or its national laboratories. In her current role as a Senior Quality Engineer at Pacific Northwest National Laboratory (PNNL), she supports multiple directorates including National Security, Energy and Environment, and Operational Systems. She provides Project QA/QC expertise to support strategic laboratory initiatives through the development, maintenance, and implementation of project-specific QA programs. She currently trains, coaches, and mentors project staff in quality processes and practices.

Before joining PNNL in 2008, she provided quality assurance expertise in roles at Lawrence Livermore National Laboratory at the Nevada Test Site and Argonne National Laboratory. She also served in QA functions with DOE's Office of Civilian Radioactive Waste Management's Yucca Mountain Project and the Defense Logistics Agency within the Department of Defense and the U.S. Air Force.

Emily has been a Certified Lead Auditor (NQA-1) since 1991 and is a member of ASQ's Design & Construction and Energy & Environmental Divisions. She earned her PhD in Organization and Management/Leadership from Capella University and completed her MBA and BS in Business Management at the University of Phoenix.
