Issue 04-16 NEWSLETTER April 2016

#### **CHAIR'S CORNER**

#### by Robert Boykin

In ethics, integrity is regarded by many people as the honesty and truthfulness or accuracy of one's actions. With that said, it can be concluded that one of the most important elements of ethical integrity is honesty. And honesty is the best policy, right? Well, some would say that is wrong because honesty is not a policy, it's a value – which is a person's principles or standards of behavior; one's judgment of what is important in life

Indulge yourself for a moment. Consider perhaps a friend and/or colleague, someone you know and interact with from time to time. Do you believe that person is trustworthy? Ponder it for a moment. What do you think?

Well, would you believe that according to pundits, 91% of us lie regularly? The majority of us find it hard to get through a week without lying. One in five can't make it through a single day without lying, and these are conscious premeditated lies. The majority of Americans (2 in every 3) believe there is nothing wrong with telling a lie. Only 31 percent believe that honesty is the best policy. The better we know someone, the more apt we are to have told them a serious lie.

Why should a high level of integrity matter? According to the same pundits, just as you want to trust others in your life, you must prove yourself trustworthy if they are to put trust in you. Having integrity is the foundation for building a circle of trust.

Unfortunately, you cannot trust everyone in your business or workplace, as if all had your best interests at heart. That's just the way life is.

Nevertheless, when you keep your integrity intact, you will find at least two effects on others: (1) Those who have integrity will be drawn to you; and (2) Those who do not have it will either seek to learn from you, or will avoid you. An old proverb says, "A cord of three strands is not easily broken." You need alliances with people of integrity, to make a circle of trust to fend off the sharks in the water. Integrity has this benefit.

It is said that a great way of allowing ourselves to open our minds to some of the realities that we face in our everyday lives is being aware of some of the more unfortunate things that occur around us, which can only help us to prevent ourselves from committing those same acts. Maybe honesty is the best policy, as well as an immeasurable value.

Be well and be safe.

#### MAKING A QUALITY DIFFERENCE

#### by Jo Haberstok

For those who were able to attend, you know that we had a very interesting and educational meeting in April. Scott Keller shared information about a number of things the Port of Benton is involved with. I had no idea how large an area they oversee. I was especially excited to hear about upgrades at <a href="Crow Butte Park">Crow Butte Park</a>; I haven't been there in several years, but now I plan to visit again soon. Crow Butte Park is located on a 1500-acre island in the Columbia River, 12 miles west of Paterson. They offer tent camping, three boat launches, and a lot of opportunities for hiking and exploring. It might be nice to go wine tasting at Columbia Crest Winery in Paterson and then take a picnic lunch and spend the afternoon at Crow Butte.

One of the things that struck me most about Scott's talk was how often he mentioned "community." And how the Port strives to help expand business opportunities in the communities they serve, which in turn increases jobs and the economy as a whole. Community is important. And the feeling of "community" is important - getting to know our neighbors, wanting to share our over-abundant garden goods with friends, and helping those who may need some additional support at any given time.

Our May 10 meeting features Pasco Police Chief Bob Metzger. When invited to speak with our group, he expressed enthusiasm and a desire to share information about what the Police Department is doing in the community. Do you know that they have quite a presence on social media (Facebook, Twitter), and are finding this to be just one more way of keeping the lines of communication open?

Our Section recognizes and appreciates the support of the many community organizations that help others. One large presence in our area is the Tri-City Union Gospel Mission (TCUGM), located in Pasco. They offer shelter, food, clothing and a lot more to men, women and children in need.

We will be holding a food/clothing/supplies drive at our May 10 dinner meeting to benefit TCUGM. Please take a look at the list of items they need and consider bringing some things to donate. (More about this later in the newsletter.)

On a more global "community" note, it's just about "last call" for getting registered for the 2016 World Conference on Quality and Improvement (WCQI), which will be held May 16-18 in Milwaukee. A couple of our members will also be participating in the Member Leader events prior to the official conference start. I am looking forward to hearing about all the new ideas I'm sure they will be get from other sections. The conferences are always great opportunities for networking and learning from others. I'm not able to attend this year, but I'm hoping to go next year.

## Pasco Police Department: Passion, Pride and Service

## Chief Bob Metzger Pasco Police Department

The City of Pasco is a diverse community of nearly 70,000 served by a police department consisting of a budgeted staff of 76 commissioned officers. Over the last couple of decades the department's mission of providing community oriented policing services has resulted in many positive developments, most notably a significant reduction in crime – from 158 crimes per thousand to the current 27 crimes per thousand, to rank Pasco as one of the safer cities in the state.

Events in 2015 caused some to question the department, how it relates to the community and how the police carry out their mission. In response, the department has been actively seeking ways to better serve the Pasco community. Much of what the department does is based on "best practices" which include: The President's Task Force on 21st Century Policing; review of practices of other police agencies; professional training of staff; and more.

In addition, the department has or is in the process of implementing several initiatives, some of which include:

- Expanding Crisis Intervention Training to more officers
- Obtaining state accreditation
- Implementing social media sites (Facebook and Twitter) to help improve communication with the community, and launching Spanish language versions
- Adopting additional review criteria to aid in the examination of force and the training of officers

Join us on May 10 to learn more about the Pasco Police Department, ensuring public safety and law enforcement, dealing with public concerns and perceptions, and more.

About the speaker: Bob Metzger became the Chief of Police in October 2011. Prior to this, he was a police chief for over 20 years in departments in Michigan and Ohio. He also previously served as a patrol officer, detective, hostage negotiator, SWAT team leader, and patrol shift supervisor. Chief Metzger completed a Masters Degree in Criminal Justice Management and has written several articles about police management for national publications. He is a graduate of the 180th session of the Federal Bureau of Investigations National Academy in Quantico, Virginia, and the 24th session of the Northwestern University School of Police Staff and Command in Evanston, Illinois.

#### WHO WILL YOU BRING TO THE MAY MEETING?

#### by Jo Haberstok

I'm excited about our May 10 dinner meeting, with the Chief of the Pasco Police Department, Bob Metzger, as guest speaker. The Police Department has been doing a number of things to try to become more actively involved in the community and to engage others in meaningful conversations about safety and related issues.

So, who will *you* be inviting to join you for this meeting? This might be a good time to invite your spouse or other family members and friends to attend.

Remember, for every guest (non-member) you invite who makes a reservation in advance and attends the dinner meeting, your name will be entered into a drawing for a Starbucks gift card. That means if have one guest, you'll get one entry, but if you sign up 10 guests ... you'll increase your odds of winning the gift card!

Reservations for the meeting are due by May 5. Just be sure that when your guests RSVP (or if you sign them up when making your reservation), that it's noted they are attending as your guest or referred by you), so you will get the entry(ies).

Added bonus: We plan to hold a similar prize drawing at each dinner meeting in 2016. Then at the end of the year (probably at the November dinner meeting), we will have a drawing from the names of all current members who brought one or more guests during the year, and one lucky member will win an even bigger prize!

### WHAT KIND OF TRAINING WOULD YOU LIKE OUR SECTION TO OFFER?

Our section wants to meet our members' needs. We try to do this as much as possible by offering a variety of speakers and topics at our monthly dinner meetings as well as offering one or two site visits each year. We have also brought in training courses, based on needs expressed by our members. The most notable of these in recent years has been offering several sessions of the Software Quality Engineering (SQE) training class.

Is there a specific topic that you would like to get training in? If there is enough interest in a topic, we will do our best to try to provide a workshop or other training. At the national level, ASQ offers many different courses, and there is sometimes a group discount if an organization wants to have training conducted on site.

Please let Alvin know by April 30 if you and others in your organization are interested in another session of SQE training – or if there is another topic you are interested in. Your responses will help us decide if, when, and what future professional training offerings to sponsor.

#### **FREE QUALITY TOOLS**

Are you or others in your organization looking for some good tools to use for collecting and/or analyzing data? Or maybe you don't really understand what some of the tools are (e.g., if "box and whisker plot" is something you believe your cat does when you aren't home)?

Check out the FREE quality tools and templates that ASQ offers. These include check sheet, control chart, design of experiments, histogram, scatter diagram, stratification, and, of course, whisker plot. Each tool has its own specific use. #### PARADOX...

Original source unknown – but a great message!

The paradox of our time in history is that we have taller buildings but shorter tempers, wider freeways, but narrower viewpoints. We spend more, but have less. We buy more, but enjoy less. We have bigger houses and smaller families, more conveniences, but less time. We have more degrees but less sense, more knowledge, but less judgment, more experts, yet more problems, more medicine, but less wellness. We drink too much, smoke too much, spend too recklessly, laugh too little, drive too fast, get too angry, stay up too late, get up too tired, read too little, watch TV too much, and pray too seldom. We have multiplied our possessions, but reduced our values. We talk too much, love too seldom, and hate too often. We've learned how to make a living, but not a life. We've added years to life not life to years. We've been all the way to the moon and back, but have trouble crossing the street to meet a new neighbor. We conquered outer space but not inner space.

We've done larger things, but not better things. We've cleaned up the air, but polluted the soul. We've conquered the atom, but not our prejudice. We write more, but learn less. We accomplish less. We've learned to rush, but not to wait. We build more computers to hold more information, to produce more copies than ever, but we communicate less and less.

These are the times of fast foods and slow digestion, big men and small character, steep profits and shallow relationships. These are the days of two incomes but more divorce, fancier houses, but broken homes. These are days of quick trips, disposable diapers, throwaway morality, one night stands, overweight bodies, and pills that do everything from cheer, to quiet, to kill. It is a time when there is much in the showroom window and nothing in the stockroom.

- Remember to spend some time with your loved ones, because they are not going to be around forever.
- Remember to say a kind word to someone who looks up to you in awe, because that little person soon will grow up and leave your side.
- Remember to give a warm hug to the one next to you, because that is the only treasure you can give with your heart and it doesn't cost a cent.
- Remember to say, "I love you" to your partner and your loved ones, but most of all mean it. A kiss and an embrace will mend hurt when it comes from deep inside of you.
- Remember to hold hands and cherish the moment for someday that person will not be there again. Give time to love, give time to speak and give time to share the precious thoughts in your mind.

A Closed Mouth Gathers No Foot.

## BRING DONATIONS TO MAY 10 DINNER MEETING TO SUPPORT THE TRI-CITY UNION GOSPEL MISSION

#### by Jo Haberstok

Please join us in supporting the Tri-City Union Gospel Mission (TCUGM). We will be collecting donations at our May 10 dinner meeting.

The TCUGM began 57 years ago and exists to serve homeless and impoverished people in southeast Washington and northeast Oregon communities. Their mission is to offer rescue, recovery and restoration services to those in need. This includes providing shelter, food, clothing, as well as addressing issues and helping with housing, job searches and support groups. Many people think they only serve men, but they also support families and provide emergency shelter for women and women with children. To learn more about TCUGM and some of the individuals who have been helped there, click here.

Some immediate needs include coffee, sugar, canned foods, disposable razors, and men's socks, T-shirts and pants. A list of current needs is included at the end of the newsletter. You may also make a monetary donation, if desired. Please help support TCUGM on May 10 by bringing items to donate.

#### **ARE YOU A GENIUS?**

#### by Lorie Rosenburg

Have you ever wanted to be a genius? You know, the kind of person that can do amazing things because they were born with an incredible IQ? Wouldn't it be great to be so smart you could accomplish pretty much anything you want, almost instinctively and with relative ease?

Well, according to Thomas Edison, being a genius is not as easy as you might think. In one of his most famous quotes, he stated: "Genius is one percent inspiration and ninety-nine percent perspiration."

Wow, that gives a whole new perspective to what it means to be a genius. Apparently anyone can be a genius by using their insight and inspiration, along with a lot of hard work, dedication, and perseverance.

When Edison was young, his teachers had told him that he was "too stupid to learn anything." In his first two jobs, he was fired for being non-productive.

And while there's conflicting information on the number of Edison's unsuccessful attempts to create a commercially viable light bulb, he demonstrated that failure is not to be avoided. It's a learning process that will help put you on a path to future success. When he was asked by a reporter how it felt to fail so many times in his pursuit of the light bulb, he replied, "I have not failed. I have just found 9,999 ways that do not work."

Failure can be a much better teacher than success and you can learn so much from your mistakes. So are you really a genius? Because it's not so much about how smart you are, but rather about how you take your ideas and inspirations and put in the time and effort to see them through to successful completion.

Lorie Rosenburg is a Mindset Coach and writer. She has managed a speaking business for 20 years with her husband, Ron, where they have helped customers and clients market their businesses and achieve success. Check her <u>website</u> for more articles.
