

Columbia Basin ASQ Meetings and Events – 2023

We strive to offer informative meetings and site visits for our members and others in our area. If you would like to plan a future meeting or site visit, or if you know of some great speakers, please let our Programs Chair know.

We are currently holding meetings every month, depending on speaker availability. We will also continue to share information about other ASQ sections' and other organizations' meetings and events through our monthly section newsletter and on our website.

Be sure to check back periodically for updates relative to future events.
