Any Questions?
Contact [Abhijit](mailto:Abhijit.Sengupta@asq.org).

For more information about our ASQ section and other upcoming events: www.asq614.org/ or our [myASQ community site](http://myASQ.com).

This is a joint event, being offered by our ASQ section and the local chapters of American Society for Materials (ASM), American Society for Mechanical Engineers (ASME), American Nuclear Society (ANS), American Chemical Society (ACS), International Society for Automation (ISA), and Health Physics Society (HPS).

Happy Hour/Networking Event

Terra Blanca Winery & Estate Vineyard 34715 Demoss Road – Benton City

We are excited to announce our first multi-professional societies' Happy Hour! Members from our local societies are all welcome to attend.

Happy Hour events provide valuable opportunities for networking and socializing in a relaxed setting. They offer everyone a chance to connect, build relationships, and learn from one another outside of the traditional work environment. In a more casual atmosphere, attendees can meet new people, exchange contact information, and establish connections that may lead to future career advancement and/or alliances.

We hope this will be the first of many such events, and that they will help foster an increased sense of community, as there are many local professional organizations in our area that probably have more in common than we might think. We can share information/knowledge, discuss industry trends, and possibly even improve our own processes and performance metrics through future benchmarking and collaboration.

We look forward to meeting new folks, reconnecting with others from the past, and learning more about other professional organizations.
