Future Proofing Your Career for the New Workplace

Rosemarie Christopher
President and CEO of MEirxRS

The workplace is transforming faster than ever. Traditional degrees and rigid career paths no longer guarantee relevance. What matters now is the ability to adapt, reskill, and turn quality expertise into business impact. “Future-Proofing Your Career in the New Workplace” empowers quality professionals to thrive in the era of AI, automation, and constant change. By mastering AI literacy, conflict resolution, innovative thinking, and solution-focused approaches, participants will learn to expand their influence, secure their future, and lead with purpose.

Key takeaways will be how to:

- Be a strategic partner and trusted advisor.
- Use AI tools to boost efficiency while adding human judgment it can't replace.
- Turn disagreements into collaboration and shared purpose.
- Look beyond checklists to uncover root causes and drive improvement.
- Link quality to outcomes, efficiency, risk reduction, and growth.
- Competence, collaboration, and autonomy make you an influencer of authority.

There is no charge but [advance registration](#) is required.
